NO STRIKE AT OMAHA.

Operators in That City Will Continue at Work.

Omaha, Aug. 10.—The telegraph operators employed by the Western Union and Postal companies in Omaha will not strike. A meeting of union leaders was held, following which a telegram was sent to President Small asking for instructions. A reply was received from Small saying that conditions were exactly as they were prior to the San Francisco strike and stating that a strike at Omaha would not be authorized at this time. This reply settled the matter so far as Omaha union is concerned and no strike will be called.

Dallas Operators Strike.

Dallas, Tex., Aug. 10.—One hundred and five Western Union operators went on strike at 8:30 o'clock Friday night, constituting the entire force of the office and operators of newspaper Western Union loops.

All Out at Fort Worth.

Fort Worth, Tex., Aug. 10.—All Western Union operators struck when news of the Dallas strike was received. They quit in a body and the company is refusing all business. The office is in darkness.

Building Trades Strike.

Washington, Aug. 10.—As a result of a general strike of building trades unions Thursday more than 150 union mechanics failed to report for work Friday on buildings being constructed by contractors affiliated with the employers' association. Fourteen buildings representing a total cost of more than \$1,000,000 are tied up.

## STRIKE IS SPREADING

Western Union Operators in Several Cities Quit.

### POSTAL'S EMPLOYEES OUT

Five Hundred of Them Join the Western Union Strikers in Chicago. Telegraph Companies Have Decided to Fight the Strike.

Chicago, Aug. 10.—Following the lead of the telegraph operators employed by the Western Union Telegraph company in Chicago, who went on strike Thursday night because they were asked to work with nonunion men in Los Angeles, telegraphers in eight other cities quit work Friday. The 500 men employed by the Postal Telegraph company in Chicago who belong to the same local of the Commercial Telegraphers' union as the Western Union men and who declare that their working conditions with the company have become intolerable, took advantage of the situation and quit work in a body Friday night at 6 o'clock.

With the walkout of the Postal employees Chicago is left with about thirty-five telegraphers endeavoring to transmit the business of both telegraph companies where under normal conditions fully 1,500 men are used.

The Western Union offices which became involved in the trouble Friday together with the number of men who quit at each are:

Salt Lake City 36, Helena 40, Kansas City 330, Dallas 105, Fort Worth, Tex., 40, Colorado Springs 10, Denver 88.

In New Orleans the men employed by the Postal Telegraph company left their keys to enforce demands made on the company several weeks ago.

Situation Cleared Somewhat.

Late Friday night the general situation had cleared somewhat and where earlier in the day it appeared as if the strike of the commercial men would be universal throughout the United States, the indications now are that no further strikes will occur for the present at least. Under orders from National President Small of the telegraphers' organization, National Secretary Russell telegraphed the secretaries of the various locals throughout the country to keep their men at work until they received further orders. Mr. Russell when asked for an explanation of this action said: "We don't want to use up all our ammunition in one charge."

The understanding is that the broker operators will be allowed to remain at work as long as the commission houses handle only their regular business over their leased wires. The broker men belonging to the union have been notified that they are to refuse to handle outside business and if they are discharged upon refusing to touch such business if offered they will be upheld by the union.

NEARLY ALL ARE OUT.

Over Three Hundred Operators at Kansas City on Strike.

Kansas City, Mo., Aug. 10.—Practically all of the 330 Western Union telegraph and Wheatstone operators struck Friday because the company insisted on some of them working with the Chicago office, which is declared unfair to the telegraphers' organization. The check boys also went out. The day force at the main office, consisting of 150 telegraph operators and fifteen Wheatstone operators, quit at 1 o'clock. Most of the night operators failed to report at 5 o'clock and the others with one exception joined the strikers as soon as they understood the situation. Only a few of the wire chiefs and three women operators remained at work and these made strenuous efforts to move business. The operators at the Board of Trade, the stock yards and the union station and the various branch offices left their keys during the afternoon with the exception of one operator at the stock yards. At all of these points much confusion resulted and the big wholesale, railway and other business concerns were seriously affected.

George W. Brownson, local manager of the Western Union, who personally aided in the work of dispatching the company's business, said that they were doing fairly well and soon expected to be in fair shape. The company has about thirteen operators at work.

SETTLEMENT SEEMS REMOTE

Strike Situation at Los Angeles Shows No Change.

Los Angeles, Cal., Aug. 10.—Settlement of the local telegraphers' strike, upon which the walkouts in other cities are more or less directly based, appears no nearer than on Wednesday evening, when the men left their keys. Assistant General Superintendent Miller of San Francisco arrived Friday afternoon. Elbert Stewart, representative of Charles P. Neill,

United States commissioner of labor, will, it is reported, soon arrive in this city. Mr. Miller stated he would immediately go over the local situation with Mr. Stewart. At the same time Mr. Miller stated that the company now has a force of forty operators and is handling all business to its entire satisfaction. The men at work were reinforced Friday by the arrival of ten operators from San Francisco.

COMPANIES WILL FIGHT.

Will Not Yield to Demands of the Operators.

New York, Aug. 10.—The Western Union Telegraph company will fight the strike of their operators in the Western cities, in the East or wherever the men may go out. A strike among the 3,000 operators of Greater New York is imminent, though sentiment among the employees is said to be divided.

The foregoing is not an official announcement but is an expression of opinion concurred in both by men associated with the executive affairs of the Western Union and by representatives of the Commercial Telegraphers' union.

The position taken by the company is that the men have no substantial grievance. A man who enjoys the confidence of high officials of the Western Union said:

"The men have no grievance. They have the strike fever and the younger element, which appears to be in control in the West and to which a period of idleness would work no particular hardship, is anxious for a showdown that will test the strength of the organization throughout the country. The company will fight, for to surrender would be suicidal. If the strike becomes general as it was in 1883 business for a time will be hampered as it was then, but eventually the men will be beaten."

This man declared that many of the operators in the New York offices would not strike.

On the other hand it was said in union circles that the original grievance against the company was in this city and that 75 per cent of the operators employed here are union men and prepared to leave their keys the moment a strike is ordered by executive officials of the union.

The Postal people will also fight, it was officially announced Friday night.

OPERATORS SENT HOME.

Refused to Work on the Detroit-Chicago Wire.

Detroit, Aug. 10.—Four operators at the Western Union telegraph office here Friday night refused to relieve on the Detroit-Chicago wire and were sent home. At 10:30 p. m., however, it was stated at the Western Union offices that all the wires were covered. The sending home of the four men and the fact that a dozen operators due to begin work at 5 p. m. and who failed to report till 9 o'clock were told that the night's business was so well cleared up that they were not needed, led to a report that a strike had occurred here.

DENVER OPERATORS OUT.

Refused to Work With Nonunion Men in Other Cities.

Denver, Aug. 10.—The eighty-three operators in the local offices of the Western Union Telegraph company are on strike. The company is completely tied up in this part of the country.

The men were asked to work with nonunion men, including Chicago, Butte and Los Angeles, and refused. The grievance committee of the telegraphers met and prepared a demand which later in the day was served on C. O. Bland, assistant superintendent of the company. The men demand an eight-hour day and higher wages.

No Strike at St. Louis.

St. Louis, Aug. 10.—At a meeting of the local union of the Commercial telegraphers in which practically all the Western Union and Postal Telegraph companies' operators in St. Louis were represented, it was decided to remain at work pending instructions from President Small.

Will Not Strike Immediately.

Indianapolis, Aug. 10.—After a protracted meeting the union operators of this city decided not to strike immediately. The calling of a strike was referred to the local executive board which, it is understood, will wire President Small for instructions.

AMICABLY SETTLED.

Wage Conference Ends in Victory for Workingmen.

Erie, Pa., Aug. 10.—After the close of a secret meeting at Cambridge Springs between the representatives of the Republic Iron and Steel company, the Western Bar Iron association and other steel trade organizations and the members of the conference committee of the Amalgamated association, it was announced that the wage agreement had been amicably settled.

The award means an increase of about 10 per cent for the puddlers or about 50 cents per ton.

## ROCKEFELLER TALKS

Oil Magnate Discusses Prosperity and Business.

### WORKING FOR THE PEOPLE

Declares He Is Harnessed to the Cart in Which They Ride—Does Not Seek to Escape From Responsibilities of His Wealth.

Cleveland, Aug. 10.—The Cleveland Plain Dealer prints a copyrighted interview with John D. Rockefeller, in which the oil magnate in discussing the recent speech of Judge Grosscup in which the latter declared that the wealth of the country is so widely distributed that it is really in the hands of the moderately well-to-do, said:

"They can hardly accuse Judge Grosscup of partiality to corporations or railroads. He has shown very well indeed how widespread is the damage resulting from the speculation through prejudice of the country's transportation. The same applies to thoughtless attacks on other lines of industry. It is worse than thoughtless to say offhand that the wealth and the industries of the country are in the hands of a few rich men, who alone will suffer. There is a direct loss to thousands of frugal people who have invested small savings in these enterprises and the indirect effect reaches still other thousands who depend in one way or another upon the success of every industry. The business of the country is interwoven until it is something like the circulation of the blood in the body. An injury or an operation at one point shocks and weakens the whole."

Referring to the financial situation, Mr. Rockefeller said:

"Who is more interested in the material prosperity of this country than I?"

Eggs Not All in One Basket.

"My eggs are not all in one basket by any means. A good deal of nonsense is printed every now and then about my having captured all the railroads of the country or having monopolized this or that. The truth is that I figure as an investor and stockholder rather than as a proprietor. But any depression is likely to mean a loss of values to me. The grocery man may not feel it if the coal business is bad or the wheat growers suffer if the railroads lose, but the man with wider interests feels every phase of depression. I do not mean that I am in the grocery or coal, or wheat business, but I am using this illustration. It is a fact that hardly any sort of business can experience dull times without loss to me. It should be plain, then, that I have the best right to be anxious for good times all around. Would I permit then, any harm to come to any line of business if I could help it?"

"I am harnessed to a cart in which the people ride," continued Mr. Rockefeller. "Whether I like it or not I must work for the rest. I cannot evade this responsibility if I would. But I do not complain of this. I am willing to draw my share of the load as long as I am able."

"The first step I took meant obligating myself to workmen who henceforth looked to me for employment and investors who put in their money and looked to me for results. At every step forward the load was heavier. The workmen numbered a few score at first, then a few hundred, then thousands. There was a similar increase in the number of investors who could hold me to account."

Had to Work for Others.

While I worked for myself, I had to work for them. Today, retired from active business, retired, that is, from business for myself, the capital I have invested makes work for thousands and opens opportunities for thousands of others to place their savings profitably. No man with money can escape this responsibility or loosen this yoke from his neck.

"We are servants and not masters, we who are or have been engaged in large business affairs. It is to our vital interest that the country prosper, that the people prosper. They can destroy us, or our business, or at least destroy our power of serving them. The richest man can eat but three meals a day and it does not take a fortune to dress well or to provide real luxury in living."

"The men who have acquired the largest fortunes have not pursued wealth, but business success. Had they desired money for the enjoyment of money they would have stopped far short of spending their lives, as they have, in the struggle that is business. The natural ambition of every man to make good provision for his family can be satisfied far short of the point reached by the big men of the industrial world of today. But they continue to toil at their desks because they love achievement, for the keen delight in creating where nothing was, and some time, I believe,

## Announcement of Interest To the Ladies of Brainerd

We have always sought to give our patrons the benefit of the very best things that we could secure and are now pleased to announce that we have secured the services of an expert corsier to demonstrate the W. B. and LaVeda corsets.

She will be with us during the first weeks of October and will fit all the better corsets absolutely free.

Ladies who have had corsets made to order or who would like to be fitted perfectly will find this an unusual opportunity to secure the best fitting models made.

We shall add a number of new styles of the better qualities which will insure a selection.

### H. F. MICHAEL Co.

people will be convinced that they are toiling for love of country as well."

"When it comes to the attacks upon him and his associates, Mr. Rockefeller shows himself the philosopher. He does not pretend to like the assaults, nor does he pretend to haughty indifference and he is not affectedly flippant in his comments. But he is not bitter toward those who assail him. He says it is a misunderstanding that will right itself in time. He frankly regrets it, but he seems even more distressed at what he considers the danger of losing a good opportunity to capture the trade of the world than over the personal phase of the attacks."

Mr. Rockefeller was asked why he did not run away from the hue and cry that pursued him. He laughed.

"Perhaps because my favorite music is 'Yankee Doodle,'" he suggested. Then, more gravely:

"I suppose I might have converted my interests into gold at one time and have taken my money to England or some pleasant part of Europe where life is organized to make things comfortable for the man with money to spend. But, do you know, that way of escape from the responsibilities and embarrassments that wealth brings to an American never occurred to me. The United States cannot develop

enough drawbacks to make me lose the feeling that there is no place like home, and that this is home, in what I firmly believe is the greatest country of the world."

QUITS GREAT NORTHERN.

First Vice President McGuigan Resigns.

St. Paul, Aug. 10.—F. H. McGuigan, first vice president of the Great Northern, has quit the service of the company—and with his family will go East, where he will take advantage of a well-earned rest. No successor has yet been appointed. It is likely that no one will be selected for the present and that operating matters on the system will be handled in the same manner as before his connection with the company.

"I have resigned as the result of a difference of opinion in regard to the operation of the road," said Mr. McGuigan. He said his relations with James J. Hill were pleasant.

Mr. McGuigan came to St. Paul last April from the Grand Trunk, where he was fourth vice president in charge of the operating department.

Cedar Shingles For Sale

Three grades of cedar shingles at whole or retail. If you are going to build call and inspect our stock. 6tf wtf

GEO. A. MCKINLEY.

Appearances Against Him.

"It's an imposition for a woman to ask her husband to do errands for her in the stores," said the subdued looking man. "I never fail to get in wrong, somehow, whenever I get something for my wife. The other day I had a bad five minutes on her account. She had given a teaspoon to me—one of our wedding presents it was—to get engraved. I showed it into my side pocket and thought I would wait till I went out to lunch and turn it over to a jeweler friend of mine down near where I eat."

"I had my luncheon first and forgot about the spoon. While the lady cashier was getting my change I pulled a handkerchief out of my side pocket, and that infernal spoon fell to the tiled floor, with a big rattle."

"I could hear people near me saying, 'Funny a decent looking duck like that would try to get away with a spoon.'"

"Of course I squared it with the cashier all right by simply showing her the spoon, but I've always been ashamed to go back and take a chance on meeting some of the same crowd there again."—New York Press.

Accidents will happen, but the best regulated families keep Dr. Thomas' Electric Oil for such emergencies. It subdues the pain and heals the hurts. tts

Harsh physics react, weaken the bowels, cause chronic constipation. Doan's Regulents operate easily, tone the stomach, cure constipation. 25c. Ask your druggist for them. tts

Wife Selling in England.

As late as the eighties of the last century cases of wife selling were by no means infrequent in England, and the thing was given an almost judicial air by the care with which the vender was supposed to observe three conditions—first, that the same wife could not be sold twice; second, that the price must exceed one shilling, and, third, that she must be delivered to her purchaser with a halter round her neck. Thomas Hardy, however, who made the sale of a wife the theme of his novel, "The Mayor of Casterbridge," says nothing of any such conditions.

As late as 1887 a wife was sold in a halter at Wakefield for half a guinea, while three years before two cases were reported from York in the same week. As a general rule it was only the poor and ignorant who followed this practice, but at least one case is on record in which the wife, duly haltered, and her husband drove up to Smithfield in a coach, and the price reached the record figure of 50 guineas and a handsome horse. "I sell my wife at Smiffel, ros bif, pot of beer," was the ignorant Frenchman's view of England. And he was not so far wrong.

A healthy man is a king in his own right; an unhealthy man is an unhappy slave. Burdock Blood Bitters builds up sound health—keeps you well. tts

"Suffered day and night the torment of itching piles. Nothing helped me until I used Doan's Ointment. It cured me permanently."—Hon. John R. Garrett, Mayor, Girard, Ala. tts

He is a wise man who knows when to stop. That you have heard before, says the Business Arena. He is a wiser man, though, who knows when not to stop—who pushes a good thing through until the vines hang heavy with the golden dollars that are his just reward for efforts hard, untiring.

A WOMEN'S APPEAL

To all knowing sufferers of rheumatism, whether muscular or of the joints, sciatica, lumbago, backache, pains in the kidneys or neuralgia pains, to write to her for a home treatment which has repeatedly cured all of these troubles. She feels it her duty to send it to all sufferers FREE. You cure yourself at home, as thousands will testify—no change of climate necessary. This simple discovery banishes uric acid from the blood, loosens the stiffened joints, purifies the blood and brightens the eyes, giving elasticity and tone to the whole system. If the above interests you, for proof address, Mrs. M. Summers, Box 423, South Bend, Ind.

## A BAD STORM AT AITKIN

Front of Foley Hotel Badly Damaged by the Wind Storm Friday Night

TWO CARS WERE UNROOFED

Mrs. Sarah Harvey, 97 Years Old, is a Remarkable Resident of Cutler

John Hessel, Jr., who came in from Aitkin today, reports that there was a very bad storm at Aitkin last night. All the windows in front of the Foley hotel were blown in, the tops were blown off two box cars and considerable minor damage was done to houses and shade trees. Fortunately there was no one injured during the storm.

Mr. Hessel is back from an extended trip through that part of the country, during which he visited a large part of Aitkin county and reports crops in that part good. He visited the home of H. M. Newell, of Cutler, formerly well known here. Mrs. Sarah Harvey, mother of Mrs. Newell, is 97 years of age and impressed him greatly by her bright mental condition, as well as her ability to get around. He states that she gets around the place as many a woman two score years younger and talks very entertainingly of the events of the early part of last century, having a good memory and having always taken a strong interest in public affairs.

## Where to Worship

Parties interested will please bear in mind that notices must be in THE DISPATCH office by 5:30 p. m. Friday evening to insure insertion Saturday. This is necessary to permit copy to be ready for printer Saturday morning.

St. Francis' Catholic church: Service will be held at 8:30 a. m. and 10:30 a. m. Sunday school at 2 o'clock p. m., vespers and benediction 8 o'clock p. m. mass on week days 7:30 a. m., except on Tuesdays and Saturdays, when mass is at St. Joseph's hospital. Rev. J. J. O'Mahoney, pastor.

CATHOLICS ARE  
AWARDED PENANT

Meeting of the Board of Managers of the Church Base Ball League so Declared

PLAN FOR NEXT YEAR'S WORK

Penant Will Soon be Purchased and Given to Winning Team by League

The postponed regular meeting of Board of Managers of the Church Base Ball League was called to order with President Chas. Rice in the chair, at 7:40 P. M. The first matter of importance was the determining of the correct standing of the teams in the percentage column—caused by games that were called on account of darkness and a tie score. The official standing is as follows:

Played	Won	Lost	Pct.
Catholics	6	0	1000
Cong.	5	2	600
Peoples	6	3	500
Presb.	8	3	375
1st Y.	6	2	333
2nd Y.	7	5	285

One game tie score was thrown out. This meeting officially declared the Catholic team the winners of the Church Base Ball League Penant for 1907.

Plans for next year were discussed and at that time the penant for 1908 will be on hand at the very outset, which will off set the idea that has seemed to be prevalent this year—that the winning team would receive nothing in recognition of their championship position but the mere honor.

Priests on penants are being secured and one will be ordered at an early date.

DECLINE IN STOCKS.

New Low Record Levels on New York Exchange.

New York, Aug. 10.—Several stocks quoted in New York fell to new low record levels Friday. Notable among them was Standard Oil, which at one time during the day reached \$466, the lowest point touched in many years. A little later the stock was offered at \$475 with no bidders.

Several years ago Standard Oil sold above \$800 per share and Friday's price indicates a shrinkage in value computed on the total capital stock of more than \$300,000,000. Other stocks that sold at a new low level Friday were the common and preferred shares of the Interborough-Metropolitan company, which operates the Consolidated traction lines on Manhattan Island. Interborough-Metropolitan common sold at 11 and the preferred at 33½. These figures are just about one-half the price of several months ago.

The general stock market was weak. There was no news to account for the falling away of prices and no excitement on the Stock Exchange. The desire to sell was not especially urgent, but there seemed to be little or no demand for stocks and in order to effect sales brokers were obliged to accept constantly lower prices.

He Knows How Adam Felt.

A young man was taken to a hospital and suffered the removal of a rib. When he came to himself he was told what had been done and seemed satisfied. Shortly after he dropped into a semiconscious state and kept calling for "the woman." For two days he was delirious and frequently called for "the woman." "I want to see the woman," he kept saying. At last the nurse in desperation said, "Well, I'm the woman." The man looked at her critically from top to toe and said, "Who would have thought that they could have made such a pretty girl out of one of my ribs." And then he settled back on his pillow, and when he awoke again he was in his right mind and was better.

ANNUAL PICNIC

The Danish-Norwegian Lutheran Sunday School Will Hold its Annual Picnic Tomorrow

The annual Sunday School picnic of the Danish-Norwegian Lutheran church near the corner of Tenth and Oak streets will materialize next Sunday if the weather permits. John Larson and Mons Mahlum will furnish rigs and should more than they can accommodate desire to go, hired conveyances will be provided. A collection to defray expenses of these will be taken up among all participating.

The picnic will be held on Lou Wick's place on Long Lake East. Families or groups will provide themselves with lunch baskets.

Open air services appropriate for the occasion will be conducted by the pastor in the forenoon.

Should the weather be unfavorable morning services will be conducted in the church at the usual hour.

Wood For Sale

Wood & Polk sell dry edging 4 foot length—full cords \$3.00 at mill. We will deliver the wood for cost of delivery extra, 50c to \$1.00. Leave orders with driver or phone 43 or 161 or 500. Drivers will receive the pay. 47t12

BOUGHT TEA BUSINESS

H. B. Van Sickle has Purchased the Grand Union Tea Co. Agency From S. W. Tracy

H. B. Van Sickle, for the past two years with Brockway & Parker, has purchased the agency of the Grand Union Tea company of Capt. W. S. Tracy. Mr. Van Sickle has not yet decided where he will locate and may open a store in the business center, or may continue to conduct the business from his house as Mr. Tracy has done. Mr. Van Sickle has a wide acquaintance in the city and should do well in the business.

Notice

All those indebted to me are requested to call at my store in the Mahlum block and settle their accounts at once. Respectfully, JOHN CARLSON.

CONFERS WITH ROOSEVELT

Attorney General Bonaparte Visits Sagamore Hill.

Oyster Bay, N. Y., Aug. 10.—After a conference of six hours with President Roosevelt at Sagamore Hill, Attorney General Bonaparte said on leaving that while many matters with which his department had to do had been thoroughly considered none of them could be discussed for publication.

"Yes, we talked about the Standard Oil," he replied in answer to a question. "No one has sent me a check yet for the \$29,000,000 fine. However, that litigation seems to be progressing satisfactorily."

"The Southern railroad situation was also gone over, but that also is in state of progression. We have given the road an opportunity to come into the higher court but of course if they have no stomach for a fight we cannot compel them to make one."

"Many other matters were talked of. We considered the Florida judgeship. A successor is to be selected to the late Judge Swayne, but no conclusion was reached on the matter."

He Worked in Oil.

Mrs. Million—Oh, so you used to know Count Macaroni in Italy. He is very attentive to my daughter, and I am quite interested in him. He tells me that he worked for years under one of the old Italian masters and his specialty is work in oil.

Mr. Globetrotter—Yes, that was his profession when I saw him. He was one of the most rapid sardine canners in the place.—London Mail.

Keys of bronze and iron have been found in Greece and Italy dating from at least the seventh century before Christ.

GEOLOGY OF THE

CUYUNA RANGE

C. K. Leith, Formerly Government Expert, Discusses the Cuyuna Range Formation

AND GEOLOGICAL CONDITIONS

Does Not Attempt to Discuss the Matter From an Economical or Financial Standpoint

(Continued from yesterday)

"The rock surface beneath the drift shows local variations of 100 feet or more, and between widely separated points, because of the general slope of the surface, may show a difference of elevation of as much as 250 feet. Frequently the soft hanging-wall slates are found to be at lower elevations because of erosion than the harder iron formation or the foot-wall quartzite adjacent, as for instance near the Pickands, Mather & Company's shaft in Sec. 8, 45-29. Notwithstanding these local irregularities of the surface, it is in a broad way relatively flat. At many places in the district and in adjacent parts of Minnesota, Cretaceous deposits are found just above the rock surface and beneath the drift, suggesting that this flat surface may be part of a pre-Cretaceous base level or peneplain. The Cuyuna district contrasts in topography of the rock surface with the producing ranges of the Lake Superior region, where there is usually a marked ridge or range giving a head to the percolating surface waters of from 200 to 500 feet and making it possible for the waters to circulate vigorously and accomplish ore concentration to considerable depths where structural conditions allow. This suggests the inference that in the Cuyuna district vigorously circulating ore-concentrating waters may not have been effective to so great a depth as in other Lake Superior iron ranges. On the other hand, the ores were developed before the base level, and before reaching the present base level, there may have been greater topographic relief, which would have aided the alteration of the rocks and concentration of the ore to a greater depth than would the present relief. The existence of the heavy mantle of weathered material over the area may represent a remnant of the weathered material which in the other districts has been removed by glacial erosion. It is obvious that the Cuyuna district has been one in which glacial deposition has predominated over glacial erosion. When it is remembered that in the other Lake Superior districts glacial erosion has probably removed large amounts of iron ore, the lack of glacial erosion in the Cuyuna district may not be an unfavorable indication."

"The Carlton and Cloquet slates were early assigned by Irving and other geologists to the Upper Huronian, but they were later referred by Spur to the Lower Huronian because of their greater metamorphism and folding than the Upper Huronian slates in the Mesabi district to the north and because they are intruded by granites supposed to be of Lower Huronian age. It is now known that the Upper Huronian series of the Mesabi district is also intruded by granite. The facts developed in the Cuyuna district seem to confirm Irving's view of the correlation.

In view of the probable equivalence of the Cuyuna and Carlton series and the occurrence of small iron carbonate bands and nodules in the slates about Carlton and Cloquet and southwestward, similar to the broader bands in the Cuyuna area, the question naturally arises why erosion should not somewhere in this great exposed slate between Carlton, Cloquet and Little Falls area uncover the lower part of the Animikie series—in other words, the iron formation. It may be that the crest of the anticline runs parallel with the Cuyuna district itself, allowing erosion to cut down here only into the main iron formation, while to the south and southeast the thick capping of slates has not been removed, or it may be that the existence of great masses of intrusive granite and diabase and the intense metamorphism which they have prevented erosion of the surface or have made the conditions unfavorable for the direct oxidation of the iron formation under surface katamorphic conditions. Certainly there are not yet enough facts available to warrant the assertion that the iron formation may not yet be found in this area."

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous lining.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

Little Willie—Say, pa, why is it that poets usually have long hair? Pa—It costs money to get one's hair cut, my son.

THEY ARE ALL RIGHT

The Parker Shows Today Close a Satisfactory Week's Business

That the Red Men made no mistake when they secured the C. W. Parker shows to furnish the attractions for their carnival has become more evident each day the carnival has been in progress. It can truthfully be said that both the free and pay attractions are as good as any ever seen in these parts if not a trifle better. Everything is clean and entirely free from the slightest objection, and the excellent reputation left by the Parker company that was here last year, has been well sustained by the company having the name of the C. W. Parker's shows.

The managers, Messrs. Cramer and Tyler, are not only pleasant and agreeable gentlemen but are young men who display a wonderful amount of executive ability. Their discipline and the excellent deportment of all employees has been favorably commented upon by all who have attended the carnival. Many of the Brainerd people will always look forward anxiously for the annual visit of the Parker shows.

QUANTRELL IS NOT DEAD.

Famous Guerrilla Leader Said to Be in British Columbia.

Victoria, B. C., Aug. 10.—Bill Quantrell, leader of Quantrell's guerrillas in the Civil war, who according to history died of wounds at a Kentucky hospital after his raiders were cut up, is alive and lives at Quatsino, on the northwest coast of Vancouver island, under the name of John Sharp, according to a number of people who have conversed with him. J. E. Duffy, a prominent timberman who recently became interested in timber land at Quatsino, recognized John Sharp, who is over seventy, wiry and grey, as Quantrell, Duffy having been a member of the Michigan troops which cut up Quantrell's force. He stated to Duffy that he was correct in his recognition. Sharp said he had been left as dead and instead of dying of his wounds at Louisville, as history recorded, had taken a horse, ridden many miles and disappeared. He made his way to South America, living a number of years in Chile, whence he went to Texas, where he engaged in the cattle business, making considerable money, which he exhausted. Then he went to Oregon and later came to British Columbia.

CROP AND TRADE SITUATION

Cross Currents Render Generalization Difficult.

New York, Aug. 10.—Bradstreet's review of trade says cross currents in crop and trade developments render generalization difficult. Dispatches to Bradstreet's point to further favorable progress by leading crops, notably corn, cotton and spring wheat, but excepting oats, reports from which are not favorable. Ideal weather is reported for corn except in parts of the Southwest; advices from the spring wheat section are better than for some time and hot weather benefits cotton. Winter wheat yields are also better than earlier indicated, but oats are turning out short and light. In the Southwest, Northwest and at large Eastern centers sentiment as to fall trade has been helped by these developments and fall buying is becoming more noticeable, as country merchants are coming in increasing numbers. In some of the large industries, however, there is quieter trade in some branches with prices easing. Thus pig iron and some finished lines are reported lower on the week. Reports show less activity in current building.

TELEGRAPHIC BREVITIES.

Mrs. Haney, wife of Justice Haney of the South Dakota state supreme court, died Friday of heart failure at Pierre, S. D.

The anniversary of the coronation of Pope Pius X. was celebrated Friday in the Sistine chapel with deep religious solemnity, great pomp and magnificence.

Patrick Brennan died at the city hospital in St. Paul of a fracture of the skull. He was injured by a plank falling on his head at the new building at Fourth and Broadway.

Andrew Johnson of Minneapolis was drowned in the river in that city Friday evening. Johnson, who was an expert swimmer, was within fifteen feet of the shore when he was seized with cramps.

Minnesota & International Railroad has Succeeded in Conquering Bad Sink Hole

TOOK LOTS OF HARD WORK

Dirt Disappeared by Train Load Without Any Show on the Surface

General Manager Gemmell and Supt. Strachan returned last night from Smith's siding, where the latter has been for some days superintending the work of filling the sink hole bridge with which they have had so much trouble. For a time it looked doubtful as to whether or not they would conquer the sink hole. As high as three train loads of dirt were dumped in as rapidly as they could be unloaded and not the slightest showing made. In fact there were several thousand cars of dirt put in before any noticeable results were seen, the dirt sinking away under the water. It is expected that there will be about a week's work more to complete the filling. There are about 130 cars of dirt a day being dumped into the hole.

"Regular as the Sun" is an expression as old as the race. No doubt the rising and setting of the sun is the most regular performance in the universe, unless it is the action of the liver and bowels when regulated with Dr. King's New Life Pills. Guaranteed by H. P. Dunn & Co., druggist, 25c. ttdsw

CAMPING AT THE FAIR

Beautiful Grove Set Apart at the Minnesota State Fair for the Benefit of Campers

A beautiful grove in the new part of the Minnesota State Fair grounds has been set apart as a camping ground for the fair, which opens on Monday, Sept. 2. A large number of commodious tents will be set up and will be rented for \$2 for the entire fair week—a merely nominal charge for the cost of handling. Tickets entitling the individual to remain on the grounds during the week for \$2. A family can camp very cheaply, as meals can be bought at low rates from the restaurants on the grounds or cooking can be carried on at the camp ground in a simple way. There is a supply of pure water and ample sanitary arrangements. The fair will be held on the great State Fair grounds midway between St. Paul and Minneapolis.

### CANADIANS A SURPRISE.

They Either Are Placed or Win Every Event in Regatta.

Philadelphia, Aug. 10.—Spirited races marked every one of the six events decided in the preliminaries to the thirty-fifth annual regatta of the National Association of Amateur Oarsmen held over the Schuylkill river course Friday afternoon. The regatta was more international than national in character for three countries were represented—the United States, Canada and Germany.

The Canadians were the surprise of the regatta. They either were placed or won every event in which they competed. Jakes and Toms, rowing for the Argonaut club of Toronto, were easy victors in the senior pair oared shells while Thompson and Toms won just as easily in the intermediate double sculls.

In the association single scull rowed in one heat, John O'Neill of the Marys club of Halifax was second to Durando Miller of the New York and W. Bowler of the Don club of Toronto was third.

To cap the climax, the Argonaut senior four-oared crew made the runaway race of this event, winning from the Ravenwood club of Long Island and Seawanabka club of Brooklyn. The Mound City and Crescents, both of St. Louis, were fourth and fifth.

Germany was represented in the regatta by Waldemar Seid of the Hellas club of Berlin. The German rowed in the second heat of the intermediate singles, but he was outclassed from the start.

### The Limit of Life

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period, that determines its duration, seems to be between 50 and 60; the proper care of the body during this decade cannot be too strongly urged; carelessness then being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every other organ of the body. Guaranteed by H. P. Dunn & Co., druggists. 50c. ttw

### Dies From Poisoning.

Kalamazoo, Mich., Aug. 10.—Emerson B. Brownelle, one of a party of fourteen people who were poisoned by mushrooms at White's lake several days ago, died at his home here from the poisoning. The other members of the party have recovered.

### "Everybody Should Know"

says C. G. Hays, a prominent business man, of Bluff, Mo., that Bucklen's Arnica Salve is the quickest and surest healing salve ever applied to a sore, burn or wound, or to a case of piles. I've used it and know what I'm talking about." Guaranteed by H. P. Dunn & Co. druggist, 25c. ttw

### Rob Postoffice Safe.

Minneapolis, Aug. 10.—Cracksmen blew open the safe in the postoffice at Columbia Heights, a suburb of this city, shortly before 3 o'clock Friday morning after they had locked the postmaster, O. M. Cornell, in his rooms above the office and L. C. Johnson in his restaurant next door. Between \$100 and \$150 in cash was taken but about \$300 worth of stamps was overlooked.

## FIGHTING NOT ENDED

French and Spanish Forces at Casa Blanca Attacked.

### NATIVES EASILY REPULSED

Moorish Losses in the First Two Days of Fighting Placed at Two Thousand Men—Kmass Tribesmen Now Have Caid MacLean.

Tangier, Aug. 10.—The fighting at Casa Blanca, is not at an end. Two concerted movements have been made on the French and Spanish forces, but in spite of this the local situation would appear to be improving. The presence of a large detachment of French troops encamped in the outskirts of the town is serving to restore confidence and a number of the European residents who sought refuge on the ships in the harbor and at the consulates are returning to their houses. Fears of a general uprising, however, have by no means subsided. General Drude's camp outside Casa Blanca was attacked twice Thursday afternoon by tribesmen who were successfully repulsed, the warships aiding with their artillery. Thursday night the Arabs made another attempt to get into Casa Blanca, but were driven back. All the consulates are now heavily guarded. French and Spanish troops are in complete possession of the town.

The Kmass tribesmen have secured possession of Caid Sir Harry MacLean from Raisuli, his bandit captor, and are negotiating with Mohammed El Torres, a representative of the sultan, for his release.

Both Spain and France are preparing to send more men and ships to Morocco. Germany is showing deep interest in the proceedings, but there are no signs of European complications.

France and Spain are acting in complete harmony and the powers are leaving them a free hand.

The Moorish losses in the first forty-eight hours of fighting are placed at 2,000 men. The French and Spanish forces had 12 or 15 men killed or wounded.

Eight hundred bodies of Moors and Jews, more or less decomposed, already have been removed from the native dwellings.

After the sacking of the Jewish quarters the bodies of dead Jews were dragged around the town by natives with shouts of derision. The French commander has had many wealthy Moors arrested and placed in prison because stores of arms and ammunition were discovered in their houses.

### INSURRECTION SPREADING.

French Residents Are Leaving Moroccan Cities.

Paris, Aug. 10.—In a dispatch from Tangier the correspondent of the *Matin* says:

"The insurrection is spreading rapidly. The French residents are leaving Alcazar and Tel El Kebir. At Tel El Kebir the situation is exceptionally grave."

"The transport Nive has arrived at Casa Blanca and landed more troops. There are now 2,000 French soldiers on shore there."

### Injunction Is Modified.

Montgomery, Ala., Aug. 10.—In accordance with the agreement made between the state and the Southern railroad by which the license of the latter in Alabama was reinstated, lawyers for the railway appeared before Federal Judge Jones and secured a modification of his injunction granted against the state restraining it from enforcing laws while litigation was pending.

### MARKET QUOTATIONS.
